T2 Communication has always protected the CPNI of its customers. What you are calling a violation is in all due respect shocking. T2 Communications exceeded the FCC requirements in protecting CPNI by use of a unique password and other personal information selected by the customer. We did not and have not had any attempts by Data Brokers to obtain CPNI information; we simply stated that fact within our CPNI Certification filing, omitting a detailed explanation that used specific word choices (semantics). We have since revised our CPNI Certification document explaining in detail how we protect against Data Broker attempts in obtaining CPNI records, complying with the change in rules relating to CPNI Certification, our 2008 CPNI Certification is attached for your review.

T2 Communications is a small CLEC located in Holland, Michigan and currently does not profit from its operations. The fine levied against us is harmful, and creates additional financial burden upon us. Therefore, T2 Communications respectfully requests that the commission reconsider its approach and cancel any imposed fines.

Respectfully submitted,

4. The Company ensures that it is in compliance with the FCC's CPNI regulations. The Company trains its personnel regarding when they are authorized to use CPNI, when they are not authorized to use CPNI, and how to safeguard CPNI. The Company maintains a CPNI Compliance Manual in its offices for purposes of training new and current employees, and as a reference guide for all CPNI issues. Our CPNI Compliance Manual is updated to account for changes in law, including the FCC's most recent changes to its regulations governing CPNI, adopted on March 13, 2007 in CC Docket No. 96-

115. The CPNI Manual contains key all essential information and forms to ensure the Company's compliance with CPNI regulations.

These records include a description of each campaign, the specific CPNI that was used in the campaign, and the products and services that were offered as a part of the campaign. The Company maintains these records in its offices for a minimum of one year.
 9. In deciding whether the contemplated use of the CPNI is proper, management consults one or more of the following: the Company's own compliance manual, the applicable FCC regulations, and, if necessary, legal counsel. The Company's sales personnel must obtain supervisory approval regarding any proposed use of CPNI.
 10. Further, management oversees the use of opt-in, opt-out, or any other approval requirements, or notice requirements (such as notification to the Customer of the right to restrict use of, disclosure of, and access to CPNI), contained in the FCC's regulations. Management also reviews all notices required by the FCC regulations for compliance therewith. Before soliciting for approval of the use of a Customer's CPNI, the Company will notify the Customer of his or her right to restrict use of, disclosure of, and access to, his or her CPNI.
